Professional Summary

React Developer with 1.5+ years of experience building scalable, high-performance web applications. Skilled in creating responsive UIs using React, Redux Toolkit, and Next.js, ensuring optimized performance and seamless user experiences. Committed to writing clean, reusable code and collaborating in agile environments for delivering robust, production-ready features.

Work Experience

Associate Software Engineer (React)

Bizcrum Infotech Pvt. Ltd. | Sep 2024 – Present

- Developed scalable React.js applications, reducing load times by 15% through performance optimizations.
- Built reusable, modular components to accelerate development and reduce code duplication by 20%.
- Integrated RESTful APIs for seamless data management and enhanced user experiences.
- Improved cross-device responsiveness and accessibility across products.
- Collaborated with designers to implement pixel-perfect UIs aligned with Figma prototypes.

Trainee Software Engineer (MERN)

Mobiloitte Technologies Pvt. Ltd. | Mar 2024 – Sep 2024

- Built full-stack features with the MERN stack for live projects.
- Designed and tested REST APIs using Postman for reliable integration.
- Created dynamic React components with reusable hooks and state management.
- Contributed to agile sprints, ensuring timely delivery and high code quality.

Intern Software Engineer (React)

Bizcrum Infotech Pvt. Ltd. | Jun 2023 – Aug 2023

- Developed responsive UI components using React, HTML5, and CSS3.
- Ensured cross-browser compatibility and accessibility standards.
- Assisted in refactoring legacy React codebases for maintainability.

Advanced Projects

AI Mock Interview Platform
Objective: Build a platform to simulate AI-powered mock interviews, helping users prepare with real-time analysis.
Tools/Tech: React.js, Node.js, Express.js, MongoDB, NLP APIs

- Designed and implemented dynamic interview flows using React with Redux for state management.
- Integrated smart feedback using NLP APIs to analyze user responses and provide actionable insights.
- Built user progress tracking dashboards to monitor improvement across different interview types.

Movix
Objective: Create a seamless movie browsing app with infinite scroll and advanced filtering.
Tools/Tech: React.js, TMDb API, Tailwind CSS, Axios

- Developed a responsive movie discovery interface using React and Tailwind CSS.
- Implemented infinite scrolling and filtering functionalities for smooth user experience.
- Integrated external APIs to fetch and display real-time movie data efficiently.

Technical Skills

Frontend: React.js, Redux Toolkit, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
Backend (Working Knowledge): Node.js, Express.js, REST APIs, MongoDB
Tools: Git, GitHub, Postman, VS Code, Chrome DevTools
Design: Figma, Responsive Design, Component Architecture
Soft Skills: Problem-solving, Team Collaboration, Communication

Education

Master of Computer Applications (MCA)
IIMT University, Meerut | Aug 2024

Bachelor of Computer Applications (BCA)
CCS University, Meerut | Jun 2022

Certifications

- Meta Front-End Developer Professional Certificate (Coursera)
- JavaScript Algorithms and Data Structures (freeCodeCamp)
- Responsive Web Design (freeCodeCamp)
